Please read the Viera Ultrasound Scanner User Manual for full instructions, symbol glossary, and safety information.

1 Download the Clarius App from the App Store or the Google Play Store

2 Start the Clarius App

3 Create Account

i If you already have an account, please log in with your existing account.

4 Insert the Battery

Once you have the Clarius App loaded onto your smart device, remove the battery saver tab and reinsert battery fully. The scanner light will flash blue, then green, and then off; the scanner is on standby waiting for the Clarius App to start.

5 Claim Your Scanner

Ensure your smart device is connected to the internet. It will take about a minute for your claimable scanner to appear in the Clarius App.

6 Create or Select Institution

Once you claim your scanner, you will be prompted by the Clarius App to create a new institution or select an institution that is already connected with your account.

7 Select Scanner

Select your new scanner from the list.

8

Watch the Connection Wheel

When the status wheel is complete, the Clarius App is connected to the Scanner.

9

Switch to Scanner's Wi-Fi Direct Network

After the initial setup, your Viera Scanner will auto connect to your smart device the next time you insert the battery. For best performance a smart device that supports 5GHz Wi-Fi is recommended.

iOS*

iOS 11+ will display a prompt each time the scanner is turned on. Simply tap the **Join** button and your scanner will connect.

Android

A message will display on the screen to confirm auto connection

*NOTE: For iOS 10 or below, users must use the manual setup method explained at www.clarius.com/wifi. The iPhone 4s doesn't support 5GHz Wi-Fi.

Issues connecting? Try the manual setup method explained at www.clarius.com/wifi

10

Start Scanning

Select Exam Type from the list.

Enter Patient Demographics, or skip to the next step.

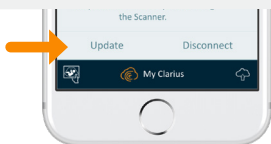

Press the Snowflake button for the live imaging screen.

Learn basic scanning functions at www.clarius.com/tutorials

Download Updates

In some instances, the system will prompt you to update your Scanner software. Simply press **Update** to proceed.

During an Update

The Scanner's light first starts blinking blue, then flashes purple while its software is updating. **Please do not unplug the battery during that time.**

A purple indicator also shows on the top-right of the screen. Once the update is complete, the scanner light will turn blue and the connection will be re-established automatically.

After the update, you may need to refer back to step #9 to re-establish connection.

Quick Tips

Search our easy knowledge base for quick tips on how to set up and use the Viera Scanner and Clarius Cloud.
